

Paint a Rainbow Candy Cane Heart

Make the holidays a little brighter with a sweet rainbow candy cane painting! This fun and easy painting project is great for groups and perfect for gifting or adding a colorful touch to any holiday décor.

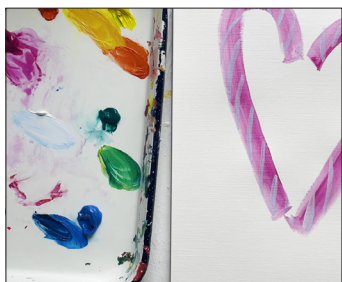

HOW TO MAKE IT

STEP 1

Using a 1/2 inch brush dipped in light pink, paint two sides of a heart in candy cane shapes on your canvas.

STEP 2

Mark out stripes evenly along your two candy cane shapes using light blue paint.

STEP 3

Begin to paint each stripe a different color, working through the rainbow in order.

STEP 4

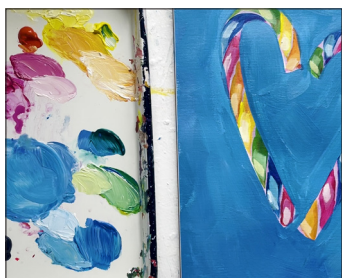

Mix white into each color used for your candy cane to create a lighter shade, then layer this color on the left side of each stripe.

Paint a Rainbow Candy Cane

STEP 5

Add even more white into the previous rainbow colors to create a pastel version of each. This color should be placed in a small dot shape on the left side to create a highlight.

STEP 6

Cover your entire background, painting around the candy canes, in blue or whatever color you'd like.

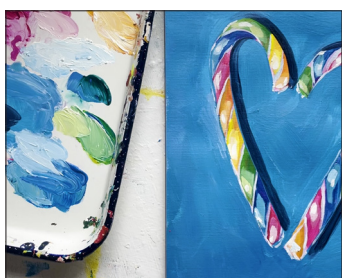

STEP 7

Dip a 3/8" brush into Payne's Grey and add a shadow on the right outside of your candy canes.

STEP 8

Taking light blue or white, make thin white lines between each color stripe on your candy canes using a round brush.

STEP 9

To finish your candy cane, put white paint on your brush and lightly go around the edges of your candy to create the illusion of a clear wrapper.
