

Paper Quill Wall Accents

Dress up windows, doorways, pictures, and more with these filagree accents made simply with curled paper.

HOW TO MAKE IT

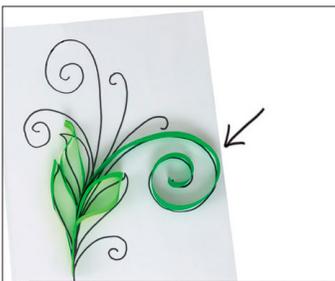

STEP 1

Draw a design. Place it under a piece of adhesive film and trace it onto the film.

STEP 2

Cut cardstock into strips, then bend, fold, roll, and curl the paper to reproduce your design.

STEP 3

Remove the protective sheet to expose the adhesive on the film. Press the strips in place over the design.

STEP 4

Hang your wall art using transparent, removable glue dots.
