

Painted & Personalized Luggage Tag

Make your luggage, backpack, or purse stand out from the crowd with a handmade, real leather luggage tag!

HOW TO MAKE IT

STEP 1

Decide on a design, then draw it onto the leather tag with a fine point marker.

STEP 2

Fill in the design with Jacquard Pinata Colors and a fine point brush. Mix it up by adding white or combining colors to create new colors and pastels. Add Pinata Claro Extender to create marble-like textures.

STEP 3

Trim both sides of the wristband with scissors to make it thinner. Embellish the band too! The band can be looped onto a bag and snapped onto the tag through the hole.
