HOW TO MAKE IT

STEP 1

Set the Fiskars Circle Cutter to 1" and cut circles from patterned paper.

STEP 2

Fold each circle in half, then fold in half again.

STEP 3

In one hand, bend the paper in half and hold onto the edges while using the index finger of the other hand to push in the center of the paper and push the sides forward. You'll see the fortune cookie begin to take shape. Stick one Zot close to the crease of the folded cookie and press the ends together.

STEP 4

Insert a fortune into each cookie. You can download fortunes from the internet or write personalized ones. Handwritten fortunes will add a personal touch.
